Continuation of Substance of Interview including description of the general nature of what was discussed: Applicants' response overcomes the rejection over Hartog. Terminal disclaimer filed over US'936 has been approved. In reviewing the current claims a typo appears in 1,2 and 4. Note "R7" appears when "R7' " really is intended. Also proviso #3 in section a) proviso is extraneous since R6'/R7' cannot be methyl if R6 or R7 is H as stated in the definitions for R6' and R7' and thus needs to be deleted from the claims. All these changes were agreed to by Mr. Tucker and will be done via an Examiner's Amendment. Also the examiner pointed to an incorrect serial no. appearing throughout several papers in the file in the upper left margin. The examiner will make an annotation for these entries to the printer to ignore this serial no. so that a printer query will not be sent.
